

*I am a small business owner who believes in fiscal responsibility and conservative leadership.*

*We must find a way to address the city's issues with public employee unions in regards to pensions and pay, and find a way to help improve the services that these sectors provide. Both the residents of Fullerton and the employees of the city should enjoy the benefits of all that our city has to offer.*

*We must continue to improve upon our education system so that residents have access to the best education options in Southern California.*

*We must continue to offer the best police and fire protection to keep our city safe. At the same time, this protection must come at a cost that is affordable to us.*

*We must improve our streets and infrastructure and find the funds to do so. This would mean a diligent look into the city's expenditures and eliminating those projects that are wasteful and a burden to our city.*

*Fullerton has been home to my family for over 10 years and I love Fullerton. As a council member, I will welcome open discussion and discourse and hope that we can continue on a path towards prosperity.*
