REBUTTAL TO ARGUMENT IN FAVOR OF MEASURE _W_

Vote NO – Don't be fooled by the Wolf in sheep's clothing. This measure is Chevron's bid to make big profits for itself, not Fullerton residents.

Chevron says the measure will open the Ward Nature Preserve. **The Truth** is this preserve is already open to the public, thanks to our City, not Chevron!

Chevron says the measure will preserve a majority of West Coyote Hills as open space.

The Truth is that "majority" includes land they are not allowed to build on according to US Army Corps of Engineers wetlands regulations.

Chevron says they will reduce fire hazards by providing a new water reservoir near their proposed development in the hills.

The Truth is water does not run uphill. This reservoir reduces hazards to their own development. What is the net benefit to Fullerton?

Chevron says this measure will create thousands of jobs and millions of dollars for the economy.

The Truth is our nation has been in a deep recession with high unemployment and record foreclosures. Simply building more houses has not been the answer. Jobs *create* demand for houses, not the other way around.

Don't be fooled by Chevron's promises of "public benefits". Their plan to build 760 houses and a shopping center will provide big profits for a company that made over \$253,706,000,000 last year, leaving Fullerton to deal with the **hidden costs** of massive traffic congestion, over-crowded schools, pollution and water shortage.

Say No to Chevron! They've got the Wrong plan for Fullerton.
